Zimele

Zimele is Anglo American's enterprise, supplier and youth development programme. Zimele works with communities to identify opportunities and develop them into real economic activities. We do this through three key programmes:

01

Enterprise development

Building and growing small businesses within our communities.

02

Supplier development

Building our supplier skills for long-term partnership success.

03

Youth development

Helping young people identify opportunities towards creating small businesses and skilling them to be employable in high demand sectors.

Zimele Blue Pages gives you access to a directory of some of the SMME's supported by Zimele.

This is a fully-navigable document that allows you to access SMME's by region and industry.
